I am currently a third-year Computer Science student at Kutaisi International University, possessing a solid foundational knowledge in computer science. I enrolled in 2022 with a 100% state grant and a monthly scholarship. Throughout my academic journey, I have developed valuable skills and gained hands-on experience in various areas of software development. While I am proficient in both backend and frontend development, my primary focus and passion lie in backend development. Additionally, I have experience in UI/UX design for websites. I am skilled in various programming languages. Furthermore, I have a strong aptitude for software testing and automation.

Experience

.NET Developer

2023 - 2024

- Took a **.NET development** course held by TBC IT ACADEMY to learn more about backend development and C# programming language. Moreover, course contained DB learning and polished up my skills in SQL. Successfully finished the course with the high scores and on top place in standings.
- During the course created several Web APIs on .NET 6, such as: [Pizza Restaurant Application](#), [TO-DO API](#) and final project [Forum.ItAcademy.Ge](#).
- Throughout these projects, I focused on writing clean, maintainable code and conducted thorough testing to ensure functionality, performance, and reliability. Additionally, I completed numerous tasks involving debugging, identifying potential issues and validating features to enhance overall quality.

Frontend developer

- I developed a Sales Project using HTML, CSS, JavaScript, and React, where I extensively tested both the frontend design and functionality throughout the development process.
- This project aimed to develop a comprehensive sales platform using React, focusing on creating an intuitive and responsive web application for Sales Platform. The platform incorporates essential features such as product browsing, filtering, sorting, cart functionality, and user authentication and other important requirements.

UI / UX designer

- Took a UI/UX design course to step in world of design and develop my skills of Figma.
- I have created an [e-commerce project](#) for sports shop.
- Project contains design of entire website. All important pages with excellent UI.
- Additionally, I was working on backend components of this online shop with my team.

Education

Physics and Mathematics Public School N41

Kutaisi International University (2022 - present)

- Bachelor of Computer Science
- GPA: 3.4

Skills

- | | | | |
|--|--------------------|--------------|----------|
| • Software Architectures / design patterns | • C# | • SQL | • Python |
| • Manual Testing Techniques | • Java | • MariaDB | • Django |
| • Communication & Collaboration | • Entity Framework | • MySQL | • OOP |
| • Version control with Git | • MVC Framework | • JavaScript | • Ocaml |
| • documentation & Reporting | • .NET Framework | • HTML/CSS | • UI/UX |
| • English C1 - C2 | • Design Patterns | • React | • Figma |
