I am currently a third-year Computer Science student at Kutaisi International University, possessing a solid foundational knowledge in computer science. I enrolled in 2022 with a 100% state grant and a  scholarship. Throughout my academic journey, I have developed valuable skills and gained hands-on experience in various areas of software development.

While I am experienced in both backend and frontend development, my primary focus and passion lie in backend development. Additionally, I have experience in UI/UX design for websites. I am skilled in various programming languages.

## Experience

### .NET Backend Developer
*2023 - 2024*

- Took a **.NET development** course held by TBC IT ACADEMY to learn more about backend development and C# programming language. Moreover, course contained DB learning and polished up my skills in SQL. Successfully finished the course with the high scores and on top place in standings.
- During this course, I've gained valuable insights into .NET framework, C#, MVC framework, SQL, OOP, LINQ, Asynchronous Programming and much more advanced topics were covered completely.

### Experience in Django

- Skilled in building basic web applications using Django models, views, and templates. Familiar with user authentication, permissions, and admin panel customization.

### Experience in Frontend development

- I developed a Sales Project as the Final Assignment of subject called "Scripting Languages". I have used HTML, CSS, JavaScript, and React.
- This project aimed to develop a comprehensive sales platform using React with essential features such as product browsing, filtering, sorting, cart functionality, and user authentication and other important requirements.

### UI / UX designer

- Took a UI/UX design course to step in world of design and develop my skills of Figma.
- I have created an *e-commerce project* for sports shop and *music application* as final projects of the course.

## Education

### Physics and Mathematics Public School N41

### Kutaisi International University   ( 2022 - present )

- Bachelor of Computer Science
- GPA: *3.4*

## Skills

- Software Architectures / design patterns
- Manual Testing Techniques
- Communication & Collaboration
- Version control with **Git**
- documentation & Reporting
- English C1 - C2

- C#
- Java
- Entity Framework
- MVC Framework
- .NET Framework
- Design Patterns

- SQL
- MariaDB
- MySQL
- JavaScript
- HTML/CSS
- React

- Python
- Django
- OOP
- Ocaml
- UI/UX
- Figma
